1. Introduction

This document describes the steps required to correctly install the Cabman Kiosk. The installation can be performed by either Euphoria or the client themselves. If you encounter any problems during the installation process, please don't hesitate to contact our help desk.

2. Check

2.1. Delivery

Euphoria is responsible for correct delivery of the Cabman Kiosk. You will receive:

- Cabman Kiosk
- 5 rolls of paper for the printer
- 2 key sets (2x 3 keys)

2.2. Check Cabman Kiosk

The following key points of the Cabman Kiosk need to be checked:

- Computer check
- Check whether the USB dongle is inserted correctly;
- Check whether all plugs are properly connected;
- Check whether the cables have been tucked away;
- Check whether the safety fuse on the power supply box is firmly connected. It is located below the power button.

2.3. Practical matters

- Determine beforehand whether the Cabman Kiosk will be installed inside or outside;
- Does the room have a power supply;
- Does the room have an internet access point;
- What is the distance to the nearest wall socket;
- What is the distance to the nearest internet access point;
- Has the central software supplier been contacted with respect to the connection.

3. Installation
